# The perfect floor designed for your interior

## Design & technology of today

Designing a Quick-Step floor is a process in which technology and creativity go hand in hand. The designers create a very wide variety of floors, each with its own natural character. That's why we work down to the smallest details, so that you can choose from an unparalleled range of designs.

## Quick-Step® makes it easy for you

At Quick-Step we don't just offer a product, we offer a total solution. From floors, to skirting boards and stair solutions, underlays, finishing profiles and accessories, our range of products guarantees a perfect result every time.

As the inventor of the Uniclic® and Uniclic® Multifit click system, Quick-Step also ensures a hassle free installation. The system enables you to click the planks together in no time.

## A heart for nature

At Quick-Step, we are conscious that the world in which you want to live doesn't consist of just stylish interiors. It is equally a world that radiates respect for our natural environment. That is precisely why we continually do our best to keep the environmental impact of our products and processes to a minimum.

## A lifetime of pleasure

### Easy and care-free

A Quick-Step floor is very easy to maintain, which means worry-free cleaning for you. The floor's surface is completely sealed and thus bacteria, dirt and even spillages have no opportunity to penetrate the floor. They can simply be wiped off, leaving a clean, hygienic surface.

### Superior scratch resistance

Quick-Step laminate floors are designed for a lifetime of living and playing. Thanks to the Scratch Guard top layer, Quick-Step laminate floors are up to ten times more resistant to scratches than floors without Scratch Guard. The protective layer provides long-term durability against everyday wear and tear such as falling objects, furniture marks, high-heel impact, etc.

### Natural beauty in every detail

The Quick-Step laminate collection is entirely inspired by nature. The wood and stone decors have just the right look thanks to realistic bevels and natural-looking structures that matches perfectly with the character of the floor. Quick-Step combines the natural look and feel of real wood and tiles with the practical benefits of laminate, such as maintenance and ease of installation.

## The big effect collection: Majestic

Give your interior the royal treatment with Majestic – the most spacious and luxurious laminate flooring ever from Quick-Step.

Using the same groundbreaking technology as our Impressive collection, the planks offer both unrivalled authenticity and extreme water resistance. All in an a striking 2.05 m x 24 cm format that will make your room come alive.

The warm look and feel of wood, with all the advantages of a laminate floor: that's our Majestic offer. The floor's unprecedently long and wide planks offer perfectly matching structures, which carry on through the bevel. The result? A perfect aesthetic balance and an unmatched naturalness.

Moreover Majestic is extremely waterproof. This makes your new floor not only easy to clean, but also suitable for bathrooms, kitchens and other wet areas.

Inspired by the latest trends in architecture, fashion and design, our in-house design team has developed 10 breathtaking decors. Whatever style fits your personality, you will be spoilt for choice.

# Create your own living space

A beautiful interior starts with a good foundation. The floor could be considered as the fifth wall and therefore it should not be overlooked. Whatever your style, whatever your room, Quick-Step has the right floor: from light, clean floors to warm brown classics and even reclaimed floors with knots and cracks.

# The details make the difference

Each laminate floor has its own story and a unique look and feel. The Quick-Step designers carefully select the structure, treatment, finishing and bevel, perfectly in line with the character of each floor design.

The icons indicate the specific design characteristics of every floor.

## Structure

 **Elegant wood structure**

A subtle surface texture with a fine grain structure that gives a wood effect with a very natural look and feel.

 **Natural wood structure**

A surface texture where the grain, knots and cracks that are visible in the design can also be felt in the surface structure of the laminate floor. This perfect combination of design and structure ensures that the floor looks and feels like real wood.

 **Intense wood structure**

This distinct structure has varying depths and gloss levels accentuating the knots and cracks. The design and surface structure is more pronounced than the natural wood structure.

 **Stone structure**

A surface texture that realistically displays the structure of a stone pattern.

 **Fantasy structure**

A surface texture that has the look and feel of exclusive materials such as leathers and fabrics.

## Treatment

### Brushed

A surface effect that gives the appearance of brushed wood. The brushed treatment adds depth and authenticity to a laminate floor.

### Saw cut

This effect gives the impression of rough sawn wood thanks to the visible and tangible saw cuts.

### Scraped

A hand-scraped surface treatment gives a crafted, hand-worked finish to your floor.

## Finishing

### Extra matt finish

An extra matt surface look.

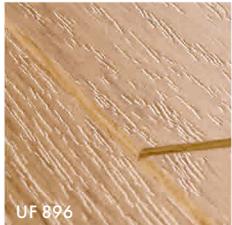

### Matt finish

A matt surface look.

### Silk/matt finish

The varying gloss levels accentuate the structure of the floor.

### Silk finish

A silk surface look.

### Silverfrost finish

A surface effect that highlights the wood grains by running a subtle silvery tone through them.

## Bevel

### Large bevel

Distinctive grooved edges offer the look of an expansive solid plank floor.

### Micro bevel

Fine micro-beveled edges clearly delineate the planks.

### Genuine bevel

The bevel is perfectly suited to the character of the floor. The colour, design and structure of the plank are visible right through the bevel.

### Impression bevel

Effect that emphasises planks in a subtle way.

# Majestic, Impressive Ultra & Impressive: The new generation of laminate floors

Quick-Step is proud to present a whole new generation of laminate floors: the most natural & waterproof laminate ever.

## Feel the structures

You only have to touch these new floors to feel the difference. Just run your fingers along the surface and you'll notice immediately that this laminate is as close to nature as it gets.

See how colour, design and structure merge right through the bevel

The character of the bevel is in perfect balance with the character of the floor. The colour, the design and the structure carry on through the bevel, giving the look of real wood.

## A unique waterproof coating

Cleaning has never been so effortless, now moisture seepage is a thing of the past. Our new Impressive range comes complete with a Hydroseal waterproof coating on the bevels. Water simply stays put on this unique coating, forming droplets that can be wiped off straightaway.

## STEP 1 INSTALLATION

# Install your floor without hassle!

Laying a Quick-Step floor is so easy thanks to the patented world-famous Uniclic® click system. This system is highly user-friendly, quicker to install and a lot more solid than other systems. A Quick-Step floor makes installation easy, even in the tightest corners or under radiators and doors.

### 1 Easy installation, thanks to the Uniclic® click system

Quick-Step is the inventor of the Uniclic® installation system, today the standard click-to-install system. Use the revolutionary and patented click system to effortlessly click your floor planks together.

### 2 Install laminate on underfloor heating and cooling

Quick-Step laminate floors are perfect for installing over underfloor heating or cooling when combined with the right underlayment.

For more information:  
visit [www.quick-step.com](http://www.quick-step.com)

### 3 Easy to install on existing floors

See for yourself how easy it is to install a Quick-Step floor in our installation videos.

Specifically developed to increase the water resistance of your floor. Elastic and transparent, Seal & Click provides life-long protection when used in bathrooms, kitchens, etc (not required for Majestic, Impressive Ultra and Impressive).

# A Quick-Step® underlay for every situation

An underlay is an absolute necessity when laying a floor. Installing the right underlay has a major impact on the final look, quality and comfort of your Quick-Step laminate floor. The high-quality underlays are easy to install, create a level base for your new floor and provide excellent acoustic and thermal insulation. The Quick-Step underlays offer a stable base protecting the Uniclic® & Uniclic® Multifit systems. Moreover, they ensure protection from rising damp.

## Finishing profiles for floor and stairs

Quick-Step's Incizo® profile is a multifunctional finishing tool. One and the same profile can be used for all the finishes of your floor and stairs, in the matching colour. Simply cut the Incizo® basic profile to the shape required using the supplied slitter.

Quick-Step® Incizo®: five questions, one answer

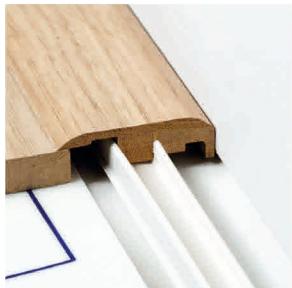

**1** How can I join two floors of the same height?

**2** How can I solve variations in height from one floor to another?

**3** How do I finish my floor along a wall or a window?

**4** How can I connect my floor to a carpet, and have a beautiful finish?

Use the Incizo® profile cut as an expansion profile.

Use the Incizo® profile cut as an adapter profile.

Use the Incizo® profile cut as an end profile.

Use the Incizo® profile cut as a transition profile.
